Subject Dimock Update (1430 hrs., 3/7/12)

Site team has not yet heard back from resident whose sampling was cancelled yesterday regarding re-schedule.

One residence scheduled to be sampled (w/splits) tomorrow, March 8th.

After tomorrow, sampling operations will be suspended while the analytical data is being received, reviewed and collated.

There are currently four outstanding residences that we are still attempting to schedule. Of these four, one will not be back in the area before April.

EPA continues to review data submitted by Cabot in response to an information request.

Alternate water continues to be provided as necessary.
